

Mitya Kurs

FULL-STACK TEAM LEAD

Full-stack developer and team lead with 14 years of experience shipping products, building resilient teams, and leveraging AI to accelerate delivery.

Recently designed, built, and launched a legal-tech platform entirely from scratch, utilizing AI-assisted development as a core engineering skill. Bringing a strong background in leading full-stack teams - decomposing monoliths, integrating complex systems, and mentoring engineers - I focus strictly on outcomes: an intuitive product, architecture that scales, and a cohesive team that knows exactly what it is building and why.

PROFESSIONAL EXPERIENCE

- 2025 - 2026** | **LawPDF, Independent Creator**
Next.js | Node.js | AWS | AI
Built a platform allowing legal professionals and clients to gather case files and automatically generate referenced, summarized documents.
- 2023 - 2025** | **Clarity, tlv — Fullstack Team Lead**
AWS | Serverless | Terraform | Vue.js | Node.js | Apollo | MongoDB
Ran technical design and delivery for the company's core product. Established architectural standards, managed the CI/CD pipeline, and ensured high availability and performance for high-traffic, business-critical features.
- 2018 - 2023** | **Daytwo, tlv — Fullstack Team Lead**
GCP | AWS | CDK | React | Node.js | MySQL
Directed local and offshore engineering teams. Scaled backend infrastructure to support high-throughput processing, enforcing strict security and compliance standards for handling sensitive international data.
- 2016 - 2018** | **Softwave, tlv — Fullstack Dev**
Azure | Angular | React | Net Core | SQL
Shipped end-to-end features for enterprise clients, transitioning legacy systems to modern frontend frameworks and building out the supporting backend architecture and database schemas.
- 2015 - 2016** | **Eternity, tlv — Fullstack Dev**
Azure | Javascript | HTML | CSS | ASP.Net | C# | SQL
Provisioned and maintained production cloud environments on Azure, handling deployment pipelines, server configurations, and operational monitoring for web applications.
- 2014 - 2015** | **Qpoint, tlv — Fullstack Dev**
Javascript | HTML | CSS | ASP.Net | C# | SQL
Contributed to a highly structured enterprise codebase, focusing on writing testable code, conducting rigorous reviews, and maintaining strict engineering and version control standards.
- 2012 - 2014** | **Bynet, tlv — Fullstack Dev**
Javascript | HTML | CSS | ASP.Net | C#
Developed foundational server-side and client-side logic for core applications, handling database design, API creation, and frontend integration.

EDUCATION

- 2009 - 2012** | Hadassah college, Jerusalem
Computer Science B.Sc.
